

* Our vision is to see **dignity restored** to people and to the Woodvale community through serving them in a Jesus-like way - pray that this would happen.

* Our newly birthed church youth group Squat will be serving alongside the team - this is an exciting new development - please pray that these young people would really **encounter God** through this and have their lives transformed. A small number of them are Christians but they have massive struggles – please pray for **breakthrough** with these issues – and that those who aren't yet Christians will want to say **Yes to Jesus**.

* Pray for our kids and teens work - that young people would see God as real, powerful and exciting - and that life with Him is incomparably better than the alternatives offered to them as they hang out on the streets. Pray that many would want to come into a **relationship with Him**.

* Pray for our **Woodvale's Got Talent** community event - people in Woodvale have been asking all year if we were going to repeat this after last year's success. Please pray that this is a powerful experience for those who take part and those who come into the church to watch - that the community would be drawn together and see the **church as somewhere open to them**. Also pray that those who take part will feel so validated by being applauded and celebrated – and that they would experience Jesus through this.

* Pray for the team - that we would be **united in vision** and in Jesus' Love. Pray for Jude and Steve as they lead – for wisdom, passion and sensitivity to the Holy Spirit.

* Pray for the Church – that people would be **inspired** to get more and more **involved** in serving the people of Woodvale. Pray that the Church will become a central hub in the community.
